

Technical Data Sheet

AF-408

Ingredient	Hydroxy compound aqueous emulsion
-------------------	-----------------------------------

Warranty	6 months (kept in a cool, dry place at room temperature)
-----------------	--

Applications	AF-408 is used in <ul style="list-style-type: none">● Wet end of papermaking● Power plant desulfurization● General industrial sewage treatment and domestic sewage treatment
---------------------	--

Features	<ul style="list-style-type: none">● Good product stability● Wide applicable temperature range
-----------------	--

Physical indicators

Exterior	White or slightly yellow milky liquid
-----------------	---------------------------------------

Solid content	(28-30) %
----------------------	-----------

pH value	6.0-8.0
-----------------	---------

Viscosity, 25°C	500-5000mPa.s
------------------------	---------------

Instructions	<ul style="list-style-type: none">● It can be added directly or diluted to low content.● It can be diluted directly with water, but it needs to be used immediately. If it needs to
---------------------	--

be stored for a certain period of time after dilution, please consult our company and we will provide professional dilution methods.

- The addition amount is generally 10~1000ppm. The optimal addition amount is determined according to the actual situation on site.
- The adding point is generally selected where the defoaming agent is easily dispersed, and a metering pump can be used to add continuously.

Precautions

- There are no fatal or harmful ingredients to the human body, but try not to touch it directly or use it if it accidentally gets into the eyes, rinse with clean water
- Storage at room temperature (5-40°C), away from direct sunlight
- Refer to the product's Material Safety Data Sheet (MSDS) before use

Usage

- Not for human injection

restrictions

- This product is not tested or represented as suitable for medical or pharmaceutical use
-

Package ● 25kg/200kg plastic drum or 1000kg IBC
drum
